Subject: Endorsement for Building Coastal City Resilience to Climate Change Impacts and Natural Disasters in Pekalongan City, Central Java Province Proposal

Dear The Adaptation Fund Board Secretariat,

In my capacity as The Head of Agency for Regional Development Planning Pekalongan City, Central Java, Indonesia, I confirm that the above national program proposal is in accordance with municipal city government's areas priorities in implementing adaptation program and activities to reduce adverse impacts of, and risks, posed by climate change in the vulnerable and effected areas in Pekalongan. The proposal has been developed through an intensive consultation with The Local Government of Pekalongan City and other related stakeholders.

Accordingly, I am pleased to endorse the above program proposal with support from The Adaptation Fund. If approved, the program will be implemented by The Partnership for Governance Reform in Indonesia (Kemitraan).

Especially for mangrove restoration activities in relation with tenure access, The Local Government of Pekalongan City by 2020 will gradually purchase those lands and other critical lands for green open areas and other conservation purposes.

After program closure, The Agency for Regional Development Planning Pekalongan City, Central Java will put the program outcomes i.e. embankments, eco-tourism, latrines, and mangroves through the inclusion into The Medium-Term Development Plan of Pekalongan City.

Sincerely,

Ir. Anita Heru Kusumohini, MSc.

Head of The Agency for Regional Development Planning Pekalongan City

CC:

Mayor of Pekalongan City.
