Proposed Decision

Decision:

Dear CTF and SCF Trust Fund Committee members,

Kindly recall that on July 20, 2018, the CTF and SCF Trust Fund Committees [approved](#) the establishment of the [Technical Assistance Facility for Clean Energy Investment Mobilization](#) (CIF-TAF) to strengthen the enabling environment for accelerating clean energy investments. During the COVID-19 pandemic in 2020-21, the CIF-TAF was also chosen as a key delivery mechanism to help countries' efforts towards building back a green and resilient recovery through technical assistance on a rapid response basis.

The CIF-TAF, as originally approved, was expected to be operational through December 2022 (see paragraph 45 of the approved CIF-TAF [document](#)). However, the original timeline had not envisaged reporting of results from the projects approved in 2022. Projects typically have two year implementation timeline which means those approved in 2022 would only be able to share results in 2024. The COVID-19 pandemic further delayed implementation due to challenges on the ground.

In lights of these considerations, we are writing to request an extension of the CIF-TAF until December 31, 2025. This will allow for the latest batch of projects approved in 2023 to be able to report on results of their implementation.

The CTF and SCF Trust Fund Committees are requested to approve the following proposed decision:

The CTF and SCF Trust Fund Committees approve the request for the extension of the Technical Assistance Facility for Clean Energy Investment Mobilization (CIF-TAF) until December 31, 2025.

The Committees note that the CIF-TAF may be extended further through a decision by the CTF and SCF Trust Fund Committees.
