**Additional Comments:**

**IDB comment:**

- Dear TFC Members,
- Your support to this project is highly appreciated as we are progressing in parallel with our internal Board approval process. Due to the significance of the Amazon region regarding inclusion, the Team Leader has diligently followed the CIF Just Transition Toolbox, which aligns with our policies and procedures. The co-financing arrangements are thoughtfully identified and justified, encompassing not only direct IDB contributions but also the potential mobilization of private capital resulting from the proposed interventions. We would like to emphasize that without the concessional support from the CTF, Bolivia would face challenges in accessing reimbursable resources given the current fiscal conditions of the country. Thank you for your consideration.

**CIF Secretariat Comment:**

PM team: Funding for Senior Loan (Tier 3 country) would be provided from Parallel Fund.

JT team: To effectively support transformational change, proposals should systematically reference CIF's definition, apply the TCLP dimensions, and utilize key investment criteria and E&L toolkits. Explicitly outlining these elements ensures clarity, identifies gaps, and provides an opportunity to address them within the framework.

Failure to align with CIF's established tools and definitions risks diminishing the transformational intent of projects, a concern increasingly reflected in external evaluations. It is essential to integrate these resources to strengthen the impact and accountability of CIF-funded initiatives.
